

MAHIKI

GENERAL INFORMATION

Mahiki, set over two floors, is the ultimate destination for the cocktail lover. A riotous colourfully illustrated menu features classic and new innovations, cocktails for one or cocktails to share. A host of tropical creations designed to tempt and delight served in an elaborate Tiki style setting. Hand-made 'Princess' chairs, colourful Hawaiian cushions, hand-carved tiki figures, intimate green rush affect banquettes all amplify the illusion of having arrived at some distant port of pleasure.

The first floor "Lanai Lounge" is designed to transport its visitors out into the jungle. Walls are lined with black bamboo and lahoula mats, mirrors are interspersed with tropical plants to reflect the tropical backdrop.

Venture to the retro-cool "Aloha Party Room" where bright orange banquette seating with over-hanging 1970's lampshades encase the room. A bar lines a curved wall and a glass installation full of tropical plants is a central feature. Music is all about 'Desert Island Discs', from early Elvis, The Beach Boys and The Beatles to funky tunes of more recent years.
