

KABARET

GENERAL INFORMATION

Located in the heart of Soho, Kabaret's Prophecy, the ultimate, deluxe play den launched in June 2004. With a maximum capacity of 140, it is both intimate and exclusive. The stunning, monochromatic space has been conceived by the renowned design and brand consultant, David Collins. Subtle warm grey colours used in the interior reflect the ever changing colour produced by the LED backdrop and the laser cut floor covering also attracts and reflects light creating, an environment that continuously evolves.

The central feature of Kabaret's Prophecy is a vast, sculptured, moving image backdrop - the first of its kind in the world - constructed from modular intelligent LED pixel blocks. Graphics and animations are superimposed on it by a nightly visual DJ. The revolutionary LED system, which covers two of the four walls, can display intelligent lighting effects, 3D logos or graphics. These moving images also curve around the contours of the walls and wrap themselves into the alcoves.

Highly skilled bar tenders and fabulous floor staff, ensure that Kabaret's Prophecy is renowned for unsurpassed levels of hospitality with both bar and table service delivering exquisite cocktails and a fabulous drinks menu, based on the classic and the best; probably the most deluxe drinks list that you will find in a club. A leading chef will devise a sublime 'comfort- food' inspired menu.
